## REGION A - GOLD WING ROAD RIDERS ASSOCIATION

GWRRA, GEORGIA DISTRICT HIAWASSEE,  
GA August 2016  
CHAPTER GA 'J' 'BLUE NOTES'

We meet the 3<sup>rd</sup> Sat of the month @[Daniel's Steakhouse, 273 Big Sky Drive, Hiawassee, GA](#)  
(706) 896-8008 Call Dave and Judy @ 828-369-5918 to confirm

---

### Dave's Drivel:

I want to THANK each and every one of y'all for coming out and supporting your Chapter. Ride numbers are increasing as well as Gathering numbers. **There were 18 attending the Dinner Ride in July.** This makes your Leaders feel as if they are not in this Chapter alone and that all y'all want your Chapter to succeed. Thank You for your support!

### An IMPORTANT FYI Re: Rescue Plus

First of all the voice of experience talking here. This was also brought up at our last gathering at Daniel's. If you **EVER** need their services (which I hope and Pray you don't) **YOU MUST CALL THEM DIRECT AND HAVE THEM DISPATCH THE WRECKER!**

If you find yourselves in an area where there is no cell service you will need to have Law Enforcement contact their dispatch and you talk to them, **RESCUE PLUS**, yourself or **RESCUE PLUS** will only reimburse you a TOTAL of \$50.00. That doesn't go very far on a \$400.00 wrecker bill. Just ask us. **WE HAVE CANCELLED OUR'S!**

---

A **BIG** Thank You to those who rode over to Louisa Chapel, Franklin, NC Saturday for the Country Breakfast supporting Asheville Ride for Kids.

---

### Coming up this Month:

Rides are possible **ANY Weekday** (weather permitting,) and/or Saturday! **WATCH YOUR EMAIL!**

**August 1<sup>st</sup>** There are two Rides currently being planned for Saturday Rides. After that Your Leaders will **NOT** be having any **PLANNED** Rides. If someone would like to plan a Ride that is no problem just **PLEASE** let Roger know in sufficient time so he can send out the particulars.

**August 10<sup>th</sup>** I am having surgery

**August 11<sup>th</sup>**, 2016 6:00 p.m. Chapter Dinner Ride - Bowl of Asia, Young Harris just beyond Citgo.

Here are some suggestions for Rides;

We owe Chapters **I2**, **F2**, and **D2** a return visit. I know there are more but my mind is shot I think.

# News From The Mountain Blue J's Nest

We need some of y'all to come up with and lead some Rides to give our regulars a break. So you see there are a lot of things to do in the coming days. Hope to see you on the road. Check out Your Website for upcoming Events @ <http://chapterj.gwrra-ga.com/>

---

## Judy's Ponderings

It is August already and I have not been on the trike since May 21! Hopefully it will be completed the first week of August then we have to get it down to Florida for the Wing Bling to go on. Dave's surgery is on the 10th so it is crunch time. Every time I see riders, and there are many going up the gorge, I want to cry. I just have to remember that we are both alive and not too terribly banged up.

That brings up another issue. With the heat it is tempting to ride without all the gear. I see many bikers and riders with tank tops, shorts, and sandals. This is dangerous in many ways. The risk of rocks flying up, sunburn, and an accident are present and without the gear you could have serious injury.

So.....please wear the gear. If it is hot consider riding in the early morning when temps are cooler. The mountains are usually cooler too and add beauty to your ride.

**I do not have a recipe this month.** Enjoying all the fresh fruit! Hope that you all are getting some great Rides in and are riding safely. But I will have a KILLER one next month!

---

## BIKERS ARE MORE ATTRACTIVE THAN DRIVERS

The results of a new research study in England finally validate what we all know to be true: motorcycle riders are more attractive than car drivers.

The study, by U.K. insurance specialists Carole Nash, asked over 1000 adults to rate the looks of the opposite sex when dressed in normal attire and riding kit. The aim of the experiment was to try and change perceptions of motorcyclists and overturn any negative stereotypes.

In five out of six cases, members of the public dressed as motorcyclists were voted as more desirable than when dressed as drivers. It's not just levels of attractiveness which came out in the bikers' favor, because riders are also seen to have more positive personality traits - people who own a motorcycle are viewed as adventurous by a third of the opposite sex (34%), closely followed by daring (28%) and fun (26%).

The research also revealed that "one in four blokes would pretend they owned a motorbike to impress a woman and almost a third (31%) said they'd go the whole way and learn to ride one if they knew it would impress a potential partner."

---

## GOLDWING AIRBAG RECALL

Recall, after recall, after recall, one thing has remained constant in the Takata airbag quagmire: The disaster has been confined to the four-wheeled realm. Not any longer, as the Honda Goldwing, the first and so far the only motorcycle equipped with an airbag from the factory, has now been recalled.

The gist of the recall is the same, two wheels or four -- Takata's airbag inflators can rupture, potentially propelling shards of metal shrapnel at the vehicle's occupants. Or in this case, the motorcycle riders.

A total of 2,701 motorcycles are involved in this recall, spanning the 2006 through 2010 model years, and only in certain regions. Only Goldwing's sold or operated in areas with high humidity or frequent temperature cycling are being recalled at this time.

Credit for this info on following page:

# News From The Mountain Blue J's Nest

THE AIM/NCOM MOTORCYCLE E-NEWS SERVICE is brought to you by Aid to Injured Motorcyclists (A.I.M.) and the National Coalition of Motorcyclists (NCOM), and is sponsored by the Law Offices of Richard M. Lester.

***It's moving across the Georgia Region, be on the look-out.  
Chapter O currently has the Hot Potato and they are itching to get rid of it.***

**Here's an area of concern for ALL YOU HARLEY RIDERS out there.**

## Ride Report

### Thursday Night Dinner Ride Franklin, NC, 7/14/16

The monthly Chapter GA-J Dinner Ride for July, 2016 was at the Asian King Buffet in Franklin, NC. We met at the Young Harris Citgo for a 5 PM departure. We rolled out on time with 5 bikes/trikes, two 4 wheel vehicles and 13 souls. Riding to Hayesville and picking up Hwy 64 east, we road in 90 degrees temps under clear skies until topping out on Chunky Gal Mountain where the temps dropped to a pleasant 77 degrees.

On a side note, I've never seen so many Sourwood Trees in bloom as in those mountains. It must be the right elevation for them, they were everywhere! I hope the local beekeepers take advantage of that bloom, we love Sourwood Honey!

We made the restaurant by 6 PM and met CD's Dave & Judy Hurd were already there. The Hurds had made reservations so we all sat at one long table, and Judy even got us all \$1.00 discount on our meals! Two more cars dribbled in with three 3 more souls bringing our total attendance to 18.

Dinner was good and plentiful as usual. We finished up around 7 PM and headed home racing to beat the rain & darkness. The ride home was uneventful.

Good dinner, good folks & a good ride!

Dennis Bible

**Once I get the Website back up and running again, I'll link to pictures from the rides as that saves room in Your Newsletter.**

## RIDE REPORT

### WESTERN NORTH CAROLINA

July 20, 2016

On Wednesday morning, July 20th, we had 6 two-wheelers and 2 three-wheelers ready to ride into the hill country of Western North Carolina. Our leader was Woodstock who has become very familiar with this area of NC. The riders were; Woodstock, Dick Schmidt, Diane Schmidt, Buddy Blake, Steve Beach, Jack Gottlieb, Brian (Jack's Son-in-law), Janet (Brian's girl-friend), Roger & Dottie LeRoy. The weather was perfect with lots of sunshine and temperatures in mid-70's. Our morning ride took us on Hwy. 64 toward Franklin, NC but before reaching Franklin, Woodstock turned on Old Murphy Hwy. for

## News From The Mountain Blue J's Nest

some curves and back country riding that brought us back onto Hwy. 64. We stayed on Hwy. 64 after passing through Franklin and soon turned on Ellijay Road. This is our second favorite road in North Carolina [first being NC Hwy. 28 from Franklin to Hwy. 74] and it was a fun ride with very little traffic. At the northern end of Ellijay Road is Jackson County Recreation Complex. We stopped here for a break and enjoyed our picnic lunch under covered pavilions. The Complex included very clean toilet facilities.

Knowing that it was going to get very hot in the early afternoon, we decided to take scenic Hwy. 107 toward Cashiers, NC. This road follows the Tuckasegee River and along the shore of Lake Glenville before reaching Cashiers. In Cashiers we turned west on Hwy. 64 toward Highland, NC. Despite the construction (straightening out some of our best curves) we were able to enjoy the last remains of the many mountain laurel blossoms that line this road. Leaving Highland, Woodstock took us southwest on Hwy. 106 toward Dillard, GA. Crossing into Georgia we avoided the village of Dillard by taking Kelly's Creek Road, crossed Hwy. 441 and headed back into the countryside by taking Wolfork Rd. Turning right on Blue Ridge Gap Rd. we soon joined Persimmon Creek Rd. that takes us to Hwy. 76 and back to Hiawassee.

As with many of our Rides, they would not be complete without a stop at a Dairy Queen. So, since we were going right by Hiawassee's DQ we had to stop and everyone but Buddy Great ride, great roads, great weather and great companions make for a fun 170 mile trip.

---

### **RIDE REPORT COUNTRY BREAKFAST SATURDAY BENEFITING RIDE FOR KIDS BY: Roger LeRoy**

Early Saturday morning, July 23, 2016, we had six Chapter J members ready to ride to breakfast in Franklin, NC for the charity meal benefiting Asheville's Ride for Kids program. Last year they cleared \$1000 at their breakfast served by the Louisa Chapel UMC located on Louisa Chapel Rd. This is their fourth year sponsoring a breakfast that contributes directly to the Pediatric Brain Tumor Foundation through motorcycling's largest charity - Ride for Kids. Our riders were: Nestor & Iris Morin, Darrell & Susan Rich and Roger & Dottie LeRoy.

The weather was beautiful with a clear sky and plenty of sunshine. The forecast was calling for rain later in the afternoon and our goal was to attend the breakfast, ride to watch the rafters and kayakers on the Nantahala River and be home before the rain arrived. As we left the Citgo Station in Hiawassee, one of the riders lost a microphone cover and we all pulled over while they went back and recovered the wayward mic cover. Proceeding north on Hwy. 515/69 we turned onto Meyers Chapel Rd. that takes us alongside of Chatuge Shores Golf Course. Turning east on Hwy. 64 we were cooled by the air atop the mountain crossing before descending into the Franklin area. Before reaching the city limits we turned right on Louisa Chapel Rd. and arrived at our destination about 9:30. Dave and Judy Hurd were there to welcome us.

The breakfast was well prepared, plentiful and delicious. Dennis and Sue Bible joined us before the cooks started clearing away the buffet. They had started out late and managed to catch up with us in time to enjoy the great breakfast. It was announced by the staff that they had cleared over \$1100 this year and everyone was very pleased with that accomplishment.

## News From The Mountain Blue J's Nest

After breakfast, with the weather looking very nice, we mounted up and rode into town where Dennis and Sue bought fuel at the station adjacent to one of Franklin's finest restaurants- Caffe' Rel. Then we located Hwy. 28 and proceeded north on my favorite North Carolina riding road. Reaching Hwy. 74, Dennis and Sue turned right to ride into Bryson City for ice cream. The rest of us turned left and rode into the Nantahala Gorge where we stopped and watched the rafters and kayakers negotiating the rapids just before their take-out site.

With some black clouds appearing on the horizon, we exited the gorge and took Hwy. 74 through Andrews, NC before turning south on Hwy. 141. As we arrived at Hwy. 64, Darrell, Susan, Roger and Dottie turned east toward Hayesville, NC. Nestor and Iris took Old Hwy. 64 toward Brasstown, NC. When we made the turn from Hayesville onto Hwy 69, it started raining. We stopped at the Citgo Station where our ride had started. Darrell & Susan continued into Hiawassee and home with the report that they had rode out of the rain as they headed east on Hwy. 76. We, on the other hand, got into a shower on top of the Young Harris hill but ran out of the rain when we turned south on Track Rock Gap Rd. Nestor & Iris reported that they got drenched when they came through the village of Warne, NC and turned south on Hwy. 66. But, being very close to home, they continued in the rain. We have not heard how Dennis & Sue made it through the pop-up storms that appear out of nowhere to dominate our typical summer afternoons. By having too much fun and enjoying the day, we missed our goal of avoiding the rain by about 30 minutes.

### RIDE FOR KIDS

Louisa Chapel UMC-Franklin, NC

July 23, 2016

Editor p.s.

A final tally brought the total to \$1345.00 as of 08/01. Will update as more comes in.

## MYSTERY RIDE

Thursday, July 28, 2016

By

**Roger LeRoy**

The Mystery Ride took place on Thursday, July 28<sup>th</sup> to try and miss the rain storms that had been plaguing our ride schedule this month. Meeting at our start point, Citgo Station, with a slight misty rain coming down were: Joe Keys, Jack Gottlieb, Nestor Morin, Dick Schmidt and Roger & Dottie LeRoy. As we rode around Lake Chatuge and headed west on Hwy. 76 the rain let up and we could see more and more blue sky. Temperature was 72°. When we arrived in Clayton, GA the temperature had risen to 82° with plenty of blue sky showing. Of course we did not take the direct route to Clayton as we turned onto Persimmon Creek Rd. and then Germany Rd. before taking a short break at the Clayton BP gas station.

Leaving the rest stop in Clayton, we headed west on Warwoman Rd. with very little traffic and then turned south on Hwy. 28 and crossed into South Carolina. After passing by Lake Leroy, we turned north on Hwy. 107 and passed Oconee State Park before turning on State Rd. 37 connecting us to Hwy. 281. At the North Carolina border we turned into Whitewater Falls National Park - our destination. We had lunch under a covered pavilion and the weather was perfect with not a cloud in the sky. After our picnic lunch, some of us took the  $\frac{1}{2}$  mile walk to an overlook view point for Whitewater Falls. (See pictures) Also, visible from here and the nearby highway was Lake Keowee. This is the same lake where Nestor & Iris Morin had taken a group ride to the Lighthouse Restaurant on the eastern shore of Lake Keowee in South Carolina.

While eating our lunch, an attendant had left envelopes on each of our bikes asking for a parking fee. We approached the attendant and it was clarified that with a 'Golden Age Pass' we did not have to pay a parking fee. Most of us had our passes and that satisfied the attendant.

Leaving the National Park, we headed north on Hwy. 281 to intersect with Hwy. 64 near Lake Toxaway. We then turned west on Hwy. 64 and headed for Cashiers, Highland and Clayton. The clouds had started to roll back in and some of them were showing signs of a midafternoon shower. Just before reaching Clayton on Hwy. 441, we stopped for a short break and then proceeded to Hiawassee via Wolfork Rd., Persimmon Creek Rd. and Hwy. 76. We managed to get home before any rain dampened our near perfect trip.

Overlooking Lake Keowee

Whitewater Falls

## RIDE REPORT

### RIDE THE GAUNTLET

By: Roger LeRoy

On Saturday, July 30, 2016 we had four Blue J's meeting at the Blairsville Marathon Station to ride to breakfast at Union County's largest motorcycle resort, the Copperhead Lodge. This group consisted of Buddy Blake, Joe Keys and Roger & Dottie LeRoy. Having missed us at the Marathon Station, Allen Uhr joined us at the Lodge for breakfast. After a very tasty breakfast, we were then joined by Bill & Barbara Schleicher and Nestor Morin. With 4 bikes and 2 trikes, we departed to conquer the GAUNTLET, enjoying the mid 70's temperature. This is a 133 mile circuit beginning and ending at Copperhead Lodge. The route includes roads and highways that most of us have ridden at some time or another. These include Blood Mountain, Hwy. 288 along Lake Chatuge, Skeenah Gap Road, Wolf Pen Gap Road, Gumlog Road, Unicoi Turnpike and Richard Russell Scenic Hwy. The Gauntlet puts all these fine motorcycling roads into one continuous ride, which offers the rider a number of options.

After leaving the Lodge, we rode Old Hwy. 76 for a short distance to turn right on Skeenah Gap Rd. then left on Hwy. 60 which is by far the prettiest section of the GAUNTLET. Winding through some of Georgia's finest countryside, we follow the Toccoa River for a long way before reaching Suches, GA. In Suches we stop at the TWO (Two Wheel Only Campground) for a short break. There are lots of motorcyclists with bikes of all descriptions resting here as the temperature is rising with clear skies and very little breeze.

The next leg of our journey is Wolf Pen Gap Rd. This is without question the curviest portion of the GAUNTLET. A number of switchbacks (some say more than the Dragon's Tail) later and we turn right on Hwy. 129 taking us over Blood Mountain to our next rest stop at Linda's Convenience Store. Buddy tells us this is a great place for an inexpensive breakfast. Continuing on Hwy. 129 for a short distance, we turn left onto Alt. 75 toward Helen, GA. Just before reaching Helen we turn onto Richard Russell Scenic Highway taking us over the second highest elevation of the trip. At one of the overlooks, we stop and take advantage of a great photo-op with the help of representatives of the Christian Motorcycle Assoc. They had set up a wayside stop serving fresh, cold water to anyone traveling over this mountain.

Descending the north side of the mountain, we turned onto Hwy. 180 and rode up to the highest elevation in Georgia – Brasstown Bald. The parking lot was crowded and they wanted what we thought was an excessive entrance fee so we turned around and came back down to Hwy. 180 heading toward Hiawassee. As we approached the light controlling the traffic around the bridge construction on Hwy. 180, a light rain cooled us off for about 3 minutes. We then rode into Hiawassee and had lunch at the DQ.

After lunch we rode through Hiawassee into Young Harris where we turned north on Hwy. 66 and then west onto Gumlog Rd. Soon, Bill & Barbara left us, but before doing so they suggested we take Smyrna Rd. to Ivy Log Rd. and the 'back way' to the Biker Barn, our next destination. We found Smyrna Rd. but, then things started to go wrong. We found ourselves heading the wrong direction, turned on the GPS for the first time and it took us back to Gumlog Rd. We finally found the Biker Barn and were happy to enjoy the AC as it was very hot (90's) by now. Also, we signed the GAUNTLET WALL. This is a wall in the back of Biker Barn with hundreds of signatures and dates of folks that had completed the GAUNTLET.

By now it was late, so we agreed to end the ride and head for home. The last leg, across Nottely Dam and return to Copperhead Lodge we'll do another time.

I'm having issues with uploading PDF files at present and am only able to upload the first page.

# News From The Mountain Blue J's Nest

## Our Ride Educator's And ACD's Corner

### From Riders Ed.....

So we're having fun riding and seeing the sights of the most gorgeous areas anywhere; the weather has been outstanding and it just is calling out for everyone to ride.

BUT.....with the days getting hotter, it just seems like we're riding right into the jet stream of a hairdryer! Even tempting the most seasoned riders to go without protective gear. Some will wear a long sleeved T-shirt to show that they're abiding by ATGATT, but I'm not convinced a T-Shirt would offer any protection against a fall or mishap on the bike.

Looking at some relatively simple things, I have three suggestions to make your ride a bit better:

1. Stay hydrated, everyone preaches it, we've all heard it and we all know it. We all know that we should always keep an insulated bottle of water and take a break every hour or so. If you're thirsty, you're already showing signs of dehydration!! Coffee, soda and caffeinated drinks do nothing to quench your thirst.

2. Wear gear designed to be protective and ventilated combined with light layers below. Your sweat doesn't evaporate as quickly and it will keep you cooler than if you just wear a single T-shirt that dries out the instant you hit the road. Soaked bandanas, towels, cooling vests and liners can give you an hour or so of riding comfort in the heat....

3. Something most of us don't think about is Sun Burn! Keep and apply sunscreen. There's nothing worse than having that weird shaped sunburn that might later become a problem. Then don't forget to cover your bike, black saddles after an hour in the sunlight become frying pans. Sounds funny but it is true... after all I read it on the internet!

Everything here is common sense, we tried a few years ago to ride with the minimum as some of our friends were doing in Florida and it was the most miserable trip we had ever taken. Again we're just making suggestions to make your ride more comfortable in the heat.

Jeff

### Rider's Block

July sure went by fast!

We've been busy riding and it seems like every time a Chapter ride is planned, we're AWOL. Well Connie has been tracking back and forth from Florida watching the newest Grandchild and I did the silliest thing, I got a job!

We took delivery of our new Roadsmith last month and have been dying to ride but the time just hasn't been right. We've done a few runs to local places, to Winder for wings and have made a circle around Blairsville, Murphy, Ducktown & Blue Ridge. I'm not sure I'm ready to ride with the pros of Chapter J but we're getting there.

We attended Chapter A's Fun Day to represent the Chapter and won some game prizes and had a good time. Not a bad turnout either and there was lots of good food and fun for those who did.

Keep your eyes open because Chapter J is planning some great stuff! Hope to see you at the next Chapter event!

Jeff & Connie

## Treasurer Report:

**Editorial note: I failed to place Barb's report in last month. Me BAD!**

Did you know that the Chapter Treasurer is not only responsible for handling the financials of the Chapter but is also to be very active in the Chapter?

### The Treasurer:

- Participates in all Chapter Team Meetings
- Takes part as an active Teammate with our Chapter Team
- Participates in Chapter fundraisers
- Leads by example
- Communicates information and ideas with the Team
- And most all, have FUN with the Chapter Members.

## SCHOOL SUPPLIES DONATION

A great big Thank You to all of the Chapter J members that participated in the fundraiser for School Supplies donated to Towns and Union County schools. We made \$185.00 at the February 2016 Valentine Day's Chinese Auction (participants purchased tickets for a chance to win items which were donated by Chapter J members). An additional \$317.16 was donated by Chapter J members in June and July 2016 bringing the grand total to \$502.16. School supplies were purchased for Primary, Elementary, Junior and High Schools. The supplies were then delivered to Towns and Union County schools for distribution.

Towns County distributes their donated school supplies by having a "Back to School Bash" at the GA Mountain Fairgrounds which was held August 1 and also at each school's Open House. Families complete an application and items are distributed according to each student's school supply list.

Union County distributes their donated school supplies by teachers referring students in need. This takes place at each school's Open House and also throughout the year.

Again, Thank YOU for your generous donations.

# News From The Mountain Blue J's Nest

And Barb and Bill THANK YOU's for all your HARD WORK to make this happen.  
Ask them about the FUN they had attempting delivery.

---

## Roger's Rangers - Ride Coordinator

## Here's a Ride coming up in October

for those that would care to participate.

I realize this is the same day as Our Chapter Picnic but we will excuse y'all for this worthwhile event.

---

Send something along anytime for your article to be placed in the next month's Newsletter. A ride you took, a special place you found to eat, most anything.

---

Just an off the collar thought, there are a few positions open for you to consider. I know I don't have anything better to do, do I?

Open positions:

### **Newsletter Editor**

Qualifications:

**Be willing**

If I can do it (well attempt to) I'll help you get started

**HAVE FUN!**

### **Motorist Awareness Coordinator**

Qualifications:

**Be willing**

Work closely with the MEC and CD in possibly setting up Speakers for Meetings.

**HAVE FUN!**

### **Chapter Photographer**

Qualifications:

**Be willing** to go on Rides and take pictures, at start of Rides, Restaurants, possibly at Chapter/District Events

**HAVE FUN!**
